

# Handy-Grout®

## Hand-operated portable grout pump!

When the job is too small to justify sending out an engine-powered grouting rig or the grout site is hard to reach with full-size equipment, just carry in the **Handy-Grout** and start pumping! The Handy-Grout is a hand-operated, positive piston pump designed to pump a wide variety of high-viscosity slurries and grouts directly from a bucket of material.

### Specifications: Handy-Grout Model HG-5

Production Capacity	12 cu. ft./hr. (90 gallons)
Line Pressure	0 - 100 psi plus
Weight	63 lb.
Dimensions	17"L x 7"W x 28"H

### Features: Handy-Grout Model HG-5

- \* Simple to transport
- \* Easy to operate and maintain
- \* Fits in tight spaces
- \* Positive displacement piston
- \* Hose assembly (1" x 10') and straight pipe nozzle

### Applications: Handy-Grout Model HG-5

Door frames, machine base grouting, void filling, mudjacking, piling encasements, underlaying, topping, post tensioning, rock/soil anchors, precast tunnel joints, waterproofing, pipe jacking slurry, tunnel liners, pre-cast tilt-up panels, T-joints, concrete planks, traffic dividers, mining applications

Performance is relative to cycle rate, mix characteristics, line size and distance. Max output, line pressure and distance cannot be achieved simultaneously. We reserve the right to amend these specifications at any time.
